

# OLD MILL IRON CAPABILITIES STATEMENT

## Metal Fabrication Source

Old Mill Iron offers a complete package to our clients, including Design, Metal fabrication, Powder coating, and Installation. Our customers benefit by not having to work around several subcontractors while on a project. Our state-of-the-art measuring and estimating system (ELaserPro 3D), CAD designers, and manufacturing facility are top-notch, allowing us to offer our area the highest customer service and standards. Commercial, Industrial or Residential, Old Mill Iron has the team to make your project successful.
